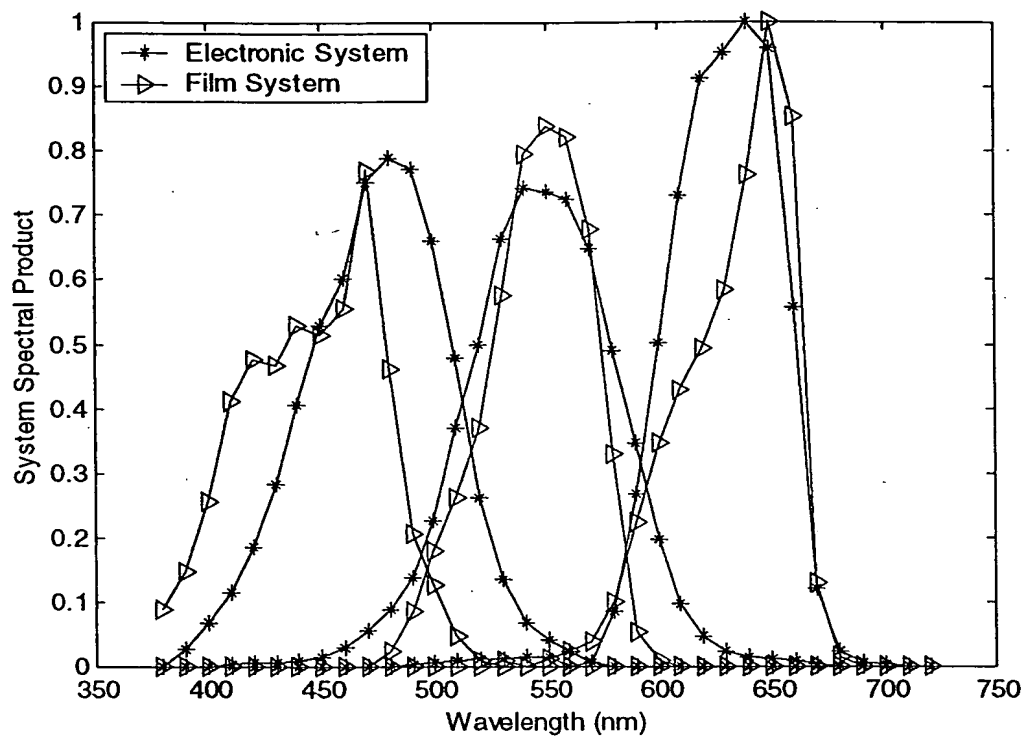

FIGURE 2

Figure 1 is a line graph showing the System Spectral Product (Y-axis, 0 to 1) versus Wavelength (nm) (X-axis, 350 to 750 nm). Two curves are plotted: 'Electronic System' (marked with asterisks) and 'Film System' (marked with open triangles). The Electronic System curve has peaks at approximately 465 nm (0.85), 545 nm (0.93), and 650 nm (1.0). The Film System curve has peaks at approximately 470 nm (0.77), 550 nm (0.85), and 655 nm (0.95). Both curves show a significant dip in the 500-600 nm range.
